

154 - CPLT 5000 - CONSTANT PRESSURE LOW TEMP

Thermoplastic constant pressure hose with low temperature specifications (-55 °C/-67 °F) for hydraulic applications up to 350 bar (5000 psi)

FEATURES

Inner Tube

Polyester elastomer

Reinforcement

One or two braids of steel wire, or one braid of aramid fiber plus one braid of steel wire

Cover

Special polyester - black - non pinpricked - white ink-jet branding

Applications

General hydraulic applications requiring high mechanical protection properties of hose and braid in cold environments combined with high pressure: construction equipment - hoisting and handling equipments - machine tools

Features

Rugged construction for heavy duty application and prolonged lifetime - Steel braid offers low volumetric expansion and optimum change in length characteristics - Abrasion resistant

Description

High pressure hose suitable for petroleum synthetic or water based hydraulic fluids in hydraulic systems. Suitable for general fluid power transmissions like earthmoving - forklifts trucks - heavy duty construction machinery - hoisting and handling equipment - high pressure equipment. Steel braid design offers very high mechanical protection which prolongs lifetime of the hose in harsh conditions. Special cover also make it the ideal hose for equipment operating in cold environments while maintaining a high level of flexibility.

Temperature Range

-55 °C to +100 °C (-67 °F to +212 °F): limited to +70 °C (+158 °F) for air and water based fluids

Vacuum Rating

-0,93 bar; -700 mm Hg|-13,5 psi; -27,5 inch Hg

Specifications

Exceeds SAE 100R18 // ISO3949-R18 pressure requirements.
